

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of your prescription-drug benefit plan. The list is not all-inclusive and does not guarantee coverage. In addition to using this list, you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate.

Benefit designs may vary with respect to drug coverage, cost, quantity limits, step therapy, days supply and prior authorization. Changes may occur throughout the year and plan exclusions may override this list.

Specialty drugs are labeled *as (SP)*
