List as of July 2025

2025 UNIVERSAL FORMULARY

The following is a list of the most commonly prescribed drugs. It represents an abbreviated version of the drug list (formulary) that is at the core of your prescription-drug benefit plan. The list is not all-inclusive and does not guarantee coverage. In addition to using this list, you are encouraged to ask your doctor to prescribe generic drugs whenever appropriate. Benefit designs may vary with respect to drug coverage, cost, quantity limits, step therapy, days supply, and prior authorization. Changes may occur throughout the year and plan exclusions may override this list.

Specialty drugs are labeled as (SP).

Drugs labeled (PA) require your doctor to complete a prior authorization form. This means that you will need to get approval before you fill your prescription. If you don't get approval, we may not cover this drug.

Drugs labeled (ST) require step therapy. In some cases, you will be asked to first try a certain drug to treat your medical condition before we will cover another drug for that condition.
